Subject: Rush Search for Serial No. 09/715,035
Importance: High

I would like to request a Rush Search for Serial No. 09/715,035 since it is an amended case now requiring a search. Thank you.

Please perform sequence search and interference search for Serial No. 09/715,035

1. Please search SEQ ID No: 1 against nucleic acid commercial and interference databases including pending and issued.

2. Please search SEQ ID No: 2 against nucleic acid commercial and interference databases including pending and issued.

3. Please search nucleotides 143-1171 of SEQ ID No: 1 against nucleic acid commercial and interference databases including pending and issued.

Please save on <u>COMPUTER DISKETTES</u>.

Please save results from interference data base search on different diskettes from the commercial and issued search results.

	TYPE OF SEARCH:	VENDOR/COST (where applic.)
Searcher:_____	NA Sequences:_____	STN:_____
Phone:_____	AA Sequences:_____	DIALOG:_____
Location:_____	Structures:_____	Questel/Orbit:_____
Date Picked Up:_____	Bibliographic:_____	DRLink:_____
Date Completed:_____	Litigation:_____	Lexis/Nexis:_____
Searcher Prep/Review:_____	Full text:_____	Sequence Sys.:_____
Clerical:_____	Patent Family:_____	WWW/Internet:_____
Online time:_____	Other:_____	Other (specify):_____

Thank you very much.

Pending Nucleic Acid and Pending Amino Acid database searches generate two sets of results each. The Pending databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches.

Searches run against the Nucleic Acid Pending database produce two sets of results, with the extensions **.rnpm and .rnpn**

Searches run against the Amino Acid Pending database produce two sets of results, with the extensions **.rapm and .rapn**

Because they contain data that is confidential, the results of Pending database searches should not be left in the case .
